Python Full-Stack Developer | Java Full-Stack Developer

SQL Developer | UI/UX Designer

PROFESSIONAL SUMMARY

Full-Stack Development enthusiast with hands-on internship experience in designing, developing, and maintaining web applications. Skilled in Python, Django, Java, SQL, HTML, CSS, JavaScript, and React JS, with knowledge of database management and software development practices. Experienced in version control using Git/GitHub and developing user-friendly applications. Possesses problem-solving and analytical skills, with exposure to AI and machine learning projects. Seeking an opportunity to contribute technical skills and grow in a dynamic development environment.

INTERNSHIP EXPERIENCE

Optimus Technocrates (India) Pvt. Ltd. **Salem, Tamil Nadu**

Python Full-Stack Developer Intern

1. Intelligent Traffic Incident Analysis

- Developed a machine learning system to analyze traffic incidents and predict traffic patterns.

Technology Usage:

- **Python** – Core programming language used for implementation.
- **Pandas** – Data cleaning, preprocessing, and dataset handling.
- **NumPy** – Numerical computations and array operations.
- **Scikit-learn** – Training and evaluation of machine learning models.
- **Matplotlib** – Visualization of traffic trends and model results.
- **Jupyter Notebook** – Model development, experimentation, and analysis.
- **Git/GitHub** – Version control and project management.

PROJECTS

1. Personal Portfolio Website

Designed and developed a responsive personal portfolio website to showcase technical skills, projects, certifications, internship experience, resume, and contact information.

Technology Usage:

- **HTML5** – Website content and page structure.
- **CSS3** – Responsive layouts and interface design.
- **JavaScript** – Interactive features and smooth navigation.
- **Bootstrap** – Responsive, mobile-friendly interface.
- **Git** – Source code version control.
- **GitHub** – Repository management and collaboration.
- **GitHub Pages** – Website deployment and hosting.

2. AI Healthcare Chatbot

Developed an AI-powered chatbot to answer healthcare-related queries using Natural Language Processing (NLP).

Technology Usage:

- **Python** – Chatbot logic and backend development.
- **NLTK** – Text preprocessing, tokenization, and intent analysis.
- **TensorFlow** – Training deep learning models for response prediction.
- **Flask** – APIs and user-interface integration.
- **SQLite** – Storage of user queries and chatbot responses.
- **REST API** – Communication between backend and frontend.
- **Git/GitHub** – Version control and collaborative development.

3. Task Management Application

Built a full-stack web application to create, update, track, and manage tasks.

Technology Usage:

- **Django** – Backend framework for CRUD operations and business logic.
- **Django REST Framework** – RESTful APIs for frontend-backend communication.
- **SQLite** – Storage of task information and user data.
- **HTML** – Web page structure.
- **CSS** – Styling and page design.
- **JavaScript** – Interactive features and client-side validation.
- **Bootstrap** – Responsive interface.

- **Git/GitHub** – Version control and project collaboration.

4. BookNest – Book Management Mobile Application
Developed a mobile application to manage book collections, issue and return books, and maintain user records efficiently.
Technology Usage:

- **Java** – Application logic and backend functionality.
- **XML** – Android user-interface layouts.
- **Android Studio** – Integrated development environment.
- **Firebase Authentication** – Secure user login and authentication.
- **Firebase Realtime Database** – Storage and synchronization of book and user information.
- **Material Design Components** – Intuitive, user-friendly interface.
- **Git/GitHub** – Version control and collaborative development.

EDUCATION

Government College of Engineering, Dharmapuri **2026**
Bachelor of Engineering (B.E.), Computer Science and Engineering **8.5 CGPA**

Jayam Vidhyalaya Matric Higher Secondary School, Harur **2019**
Higher Secondary Education **85%**

Kalaimagal Matric Higher Secondary School, Kadathur **2017**
Secondary Education **97.6%**

TECHNICAL SKILLS

Programming Languages	Python, Java, SQL, C
Python Full-Stack Development	Python, Django, Django REST Framework, HTML, CSS, JavaScript, REST APIs
Java Full-Stack Development	Core Java, OOP Concepts, JDBC, Servlets, JSP, Spring Boot, REST APIs, HTML, CSS, JavaScript
Database Technologies	MySQL, Oracle SQL, SQLite
Microsoft Office	MS Word, MS Excel, MS PowerPoint, MS Outlook
UI/UX Design	Figma, Wireframing, Prototyping, User Interface Design
Tools & Platforms	Git, GitHub, VS Code, Google Colab, Anaconda
Operating Systems	Windows, Linux (Basic)

SOFT SKILLS

Teamwork and Collaboration
Problem Solving and Critical Thinking
Effective Communication
Leadership and Initiative
Time Management
Adaptability and Flexibility

CERTIFICATION AND TRAINING

- Optimus Technocrates – Python Full Stack Development and Web Development Internship
- Tamil Nadu Skill Development Corporation – Mobile App Development
- Workshop on AI Horizons – Artificial Intelligence Workshop

WORKSHOPS & TRAINING

- NVIDIA Fundamentals of Deep Learning
- Deep Learning Workshop – Mahendra College of Engineering
- Web Development Workshop – Olgaar Technology
- Cybersecurity Workshop – Kriyavan
- AI Horizons Workshop – Mahendra College of Engineering

LANGUAGES

English – Intermediate (B1)
Tamil – Upper Intermediate (B2)
